APPENDIX III.

[*Vide* answer to Unstarred Question No. 188 on page **302**]

Recommendations made by the State Transport Advisory Committee at its meeting held on 20th December 1963.

Subject. (1)	*Recommendations.* (2)
1 Standardisation of forms of tickets issued to passengers of stage carriages.	On the suggestion of the Chairman it was agreed that printed tickets with fares marked may be introduced as an experimental measure in express buses of private operators.
2 Publication of list of weak structures on notice board in the Regional Transport Offices for the information of permit holders.	In view of the present strength of the road structures which are capable of permitting the increased maximum load up to 12 tons, there is no need to publish on notice boards a separate list of weak structures. The suggestion was therefore dropped.
3 Classification of routes on ghat road and hilly tracts.	It was agreed that no change in the present classification of routes is necessary. The proposal was dropped.
4 Right hand circulation of motor vehicles.	Deferred.
5 Introduction of long distance night services.	It was agreed that the proposal should be dropped as it may lead the increase in the number of accidents due to heavy lorry traffic during nights.
